Cal OES INLAND REGION

Potential Ricin Incident, Tuolumne County

On 02/07/20 at 1638 hours, the California State Warning Center was contacted by the Tuolumne County Environmental Health Director, advised of a potential ricin incident at the Sierra Conservation Center, a CDCR facility in Jamestown, Tuolumne County. He advised that a package was received and opened in the mail room that contained a suspicious white substance.

- Decontamination of the eight individuals who may have come into contact with the substance was completed by Tuolumne County Environmental Health Department.
- The FBI will handle the testing of the substance.
 - The white powder substance will be tested and triaged by FBI personnel prior to its transport to the Sacramento Bioterrorism Lab.
 - Test results can take as long as 5 days for confirmation, but presumptive results can be ready in as soon as 24 hours.
- The mail room where the package was opened, is a stand-alone building and has been secured. The HVAC system associated with the building has also been secured.
 - County environmental health and public health will lead decontamination of the mail room.

Per Cal OES Law Enforcement Branch

- Per the Cal OES Law Enforcement Branch Assistant Chief on scene, this is NOT a Ricin incident, however, testing will still be completed.
- The warden and his staff were briefed on the minimal threat posed by most white powdery letters and steps his staff could take to minimize their exposure.
